Sabah Malaysia

16th August 2024

Dear Hiring Manager,

I hope this cover letter finds you well. My name is Aliyah Amani Binti Zulkifli, and I am currently a fourth-semester student pursuing a Diploma in Computer Science at Universiti Teknologi Mara (UiTM), Kota Kinabalu. I am reaching out to inquire about potential internship opportunities at Sabah Ports Sdn Bhd that are related to my field of study.

In my academic journey, I have developed strong skills in web development and database management. For instance, I have developed a booking website for Aioki Self-Photoshoot Studio using HTML, CSS, and PHP. Additionally, I created a booking catering database management system using MySQL for a computer project. These projects have honed my abilities in both front-end and back-end development and I am eager to contribute to your team while further enhancing my knowledge and skills.

I would appreciate it if you could inform me about any available internship programs for students with my background. I am particularly interested in being attached to the Information System Department. I have provided some additional information about my qualifications and experiences for your consideration.

Thank you for considering my inquiry. I look forward to the possibility of contributing to your team and learning from the professionals at this company.

Best regards,  
Aliyah Amani Binti Zulkifli
